**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Reissue Declaration***

1. The reissue declaration filed with this application on August 28, 2009 is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The Declaration submitted August 28, 2009 indicates that the original patent is defective because applicant seeks “to narrow the claims” to include a “taper angle” shape of contact holes.

However, the “taper angle” being added as indicated by the Declaration as “narrowing” is not an error that can be corrected because “having a tapered upper portion” is the limitation that was added to result in an allowance of the original patent, so this shape is not narrowing the claims of the original patent. The limitation of the contact openings having a tapered upper portion is required by claims. Furthermore, the limitation, “a taper angle of the tapered upper portion deviates from a taper angle of a lower portion” is not fully supported since only a funnel shape with vertical sidewalls of a lower portion and a single taper angle of an upper portion are disclosed in the originally filed patent.

Claims 1-4, 30-39, 41, 42, 45-57 and 59-63 are rejected as being based upon a defective reissue Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect in the Declaration is set forth in the discussion above in this Office action.

***Terminal Disclaimer***

2. The terminal disclaimer filed on April 8, 2009 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent issuing from application serial number 10/243,496 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Assent of Assignee***

3. A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 was received on April 8, 2009.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
